

# Strontian Playpark Renovation

**Please vote for one choice  
Option A, B, or C, considering:**

- **Does your choice offer a good range of activities, climbing, swinging, free play, sliding etc?**
- **Can the equipment be used by a range of ages and abilities?**

[ Whichever is the winning choice, one or two pieces of equipment will be installed around April/May with the money we have, then the community will raise between £51-59,000 during 2026, and once all funds are in place the remaining equipment will be installed – ideally late 2026 ! ]

## Surfacing and Groundworks:

Supply & lay 221m<sup>2</sup> Ecosmart Grassmat CFH 2m (including mesh membrane).

Supply & install 26m<sup>2</sup> Eco Mulch (brown) 40mm depth (FFH 1.3m) with 4m<sup>2</sup> wear pad of 40mm wet pour (FFH 1.2m, colour TBC) on 50mm stone base

Remove and dispose (cut off at ground level) all existing equipment within fenced area:

- 2x swings (double bay and single bay)
- Slide
- Seesaw
- Trail
- Springer
- Panel

Remove and dispose of 21m<sup>2</sup> rubber surfacing including making good with turf (inc. preparation).

# Things to think about:

- Options are all within a fundraising target for the summer of £51-59,000
- Option A and C propose removing the existing large slide (but could be asked to retain it and reconfigure their designs)
- Option B retains the old slide and cableway is outside boundary
- Option A offers 5 swings, and a hammock and 3 sensory play panels (neither of the others offered ‘sensory play’ but could be asked)
- Option B offers 5 swings but no “hammock” but more climbing
- Option C only offers 4 swings but includes a hammock and cableway is within the playpark perimeter.
- Options A and B have the better “Multiplay” units for younger children
- All Options could be subject to minor alterations such as different springers or roundabouts, relocating some items or Option B could be asked to add a picnic table, which the others have offered.
